Partner, SeaPay

Jes Tousgaard
Naval Architect,
SeaPay

Vision

To become a **leading, global provider** of maritime IT solutions and services within selected shipping related business areas - with focus on **quality shipping operations** as well as **seamless and optimized interaction** between ship- and shore organizations.

Mission

To support shipping related companies with **second to none IT solutions and services** - in areas where we **possess in-depth knowledge and experience**.

(- today we are very strong in Crew Management, Marine Payrolls, Load Planning and Container ERP solutions)

Key differentiators:

- We support **more than 100 shipping related companies**; ranging from the smallest to the largest shipping companies in the world.
- We have **more than 280 skilled and experienced employees** able to take on very big and complex IT related tasks / projects.
- We know our doings; we are able to draw upon the **vast maritime knowledge and experience base** imbedded in the companies behind SeaSolutions.
- We have a **very long, proven track record** for actually bringing maritime IT solutions to work in real life (including solutions onboard ships).
- We feel an **obligation to deliver to mutual/customer satisfaction**, or to tell up-front if we can't.
